

STRATEGIC Kids®

at Stanwood Elementary

Winter

Early Spring

Strategic Kids' BricQ Motion Sports will get students working with LEGO® while teaching a wide variety of engineering topics. Children will learn organizational and fine motor skills, as well as team work and other life strategies! Through this course, the students will discover simple engineering concepts using gears, levers and cams by engaging in fun activities and guided play based around games from the sports arena.

In this magical class, our fun instructors will challenge students to create the world of Harry Potter with LEGO®! In the program, we sort students into a House and earn points towards The House Cup. The class will focus on creating short stories in places familiar to Harry and his fellow wizards. Students - get ready to learn some LEGO® magic (building techniques), Harry Potter lore, and to sharpen your imagination!

LEGO® Teaches

- Fine Motor Skills
- Spatial Awareness
- Experimentation
- Constructive Planning
 - Teamwork
 - Concentration
