Re: Purchase of Vehicles for CTE Programs

Attached is a quote that was created through the Washington State Department of Enterprise Services contract to purchase 2 Ford Expeditions from Bud Clary Ford. Bud Clary Ford is the contracted vendor for vehicle purchases for the State. These two vehicles will be used to transport students safely and economically for Career and Technical Education activities including work site tours, Career and Technical Student Organization (CTSO) competitions and activities, job shadows, field trips, and work-based activities. Our goal is to continue to expose students to the world of work as they prepare for their post high school goals. They will be purchased using Career & Technical Education carryover funds as an allowable Career & Technical Education expense.

The Career & Technical Education (CTE) program is funded through state apportionment dollars based on the enrollment in the program. By state statute 95% of the funds generated by the CTE program enrollment are to be used within the program. Of that allocation districts are allowed to carryover a maximum of 10% of those funds. Any unspent funds in excess of the 10%, must be returned to the State. We have been accumulating these carryover funds over the last two years to fund this purchase.

Recommendation: That the Board approves the purchase of 2 Ford Expeditions from Bud Clary Ford.
